	▲ Back to To
Correct 2.00 points out of 2.00	
HDFS has a default quota of 100MB per user	
Select one:	
○ True	
<ul><li>False ✓</li></ul>	
The correct answer is 'False'.	
Question 4	
Correct 2.00 points out of 2.00	
HDFS ACL control access of HDFS files by providing a way to set different permissions for specific named users or named groups.  Select one:  True ✓ False	
The correct answer is 'True'.	
The correct answer is 'True'.	
The correct answer is 'True'.  Question 5  Correct 2.00 points out of 2.00	
Question 5 Correct	
Question 5  Correct 2.00 points out of 2.00  As a Hadoop administrator you don't need to backup the system as all the data is distributed	
Question 5  Correct 2.00 points out of 2.00  As a Hadoop administrator you don't need to backup the system as all the data is distributed on HDFS  Select one:  True	
Question 5  Correct 2.00 points out of 2.00  As a Hadoop administrator you don't need to backup the system as all the data is distributed on HDFS  Select one:
